

LEARN TO QUILT!

Basic Quilting: On the Double with Borders

This beginner's course offers basic instruction on rotary cutting and accurate piecing while making a simple lap quilt. Week 1 is all about rotary cutting and true ¼" seam allowance. Week 2 is focused on sewing block rows together. Week 3 covers borders. We offer a separate binding class to allow participants to have their project long-arm quilted if they choose. See binding class information below.

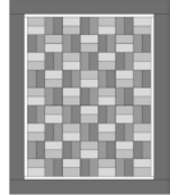

Mondays March 5, 12, 19 6-9pm

Cost: \$45 + pattern

Pattern and supplies are available separately.

Supply lists will be provided and reviewed at time of registration/payment.

No refund available less than 2 weeks prior to class.

Important note: Sewing machines must be in good working order and students should be familiar with their machine. In fairness to all students, teachers are not able to spend class time troubleshooting machine problems. Come to class with 2 bobbins wound and a new needle in your machine.

Binding Class

This class will cover both hand and machine binding techniques for a perfect finish to your quilt.

Thursday, February 8 1-4 OR 6-9pm Cost: \$20

Class fee includes quilt sandwich and binding for class. Students take sandwich home for future binding reference.

Supply lists will be provided and reviewed at time of registration/payment.

No refund available less than 2 weeks prior to class

Traditional Sampler Blocks

In this class we will make six sampler blocks and learn to use the Easy Angle and Companion Angle tools. Students will receive in depth instruction that will provide skills to build a great foundation for future projects. The first 3 classes teach 6 different blocks and the fourth class will teach sashing and border application. Students should have basic knowledge of rotary cutting and ¼" seams.

Mondays February 5, 12, 19, 26 6-9pm

Cost: \$55 + pattern

Pattern, rulers and supplies are available separately.

Supply lists will be provided and reviewed at time of registration/payment.

No refund available less than 2 weeks prior to class.

Important note: Sewing machines must be in good working order and students should be familiar with their machine. In fairness to all students, teachers are not able to spend class time troubleshooting machine problems. Come to class with 2 bobbins wound and a new needle in your machine.
